JULIAN BURNLEY

WEBSITE DESIGNER & WEB DEVELOPER

Casa Grande, Arizona | 623-703-6628 | julian@julianburnley.com | julianburnley.com/portfolio | GitHub

PROFESSIONAL PROFILE

Website designer and developer with more than two years of independent web project experience and four recent paid client projects. Build and maintain responsive WordPress sites, e-commerce experiences, and custom HTML/CSS/JavaScript websites. Combine web design education, programming and systems analysis, IT troubleshooting, client collaboration, and AI-assisted workflows to deliver practical digital solutions.

TECHNICAL & DESIGN SKILLS

- Website development: HTML5, CSS3, JavaScript, responsive layouts, WordPress, Elementor, WooCommerce, website content management
- Development & deployment: Git, GitHub, GitHub Actions (workflow exposure), Vercel, Visual Studio / VS Code, domain and DNS configuration
- Design & optimization: Figma and Adobe Creative Suite (academic training), mobile-friendly UI, accessibility-aware design, Google SEO fundamentals, image optimization
- Business websites: contact forms, customer inquiry workflows, digital product delivery, troubleshooting, cross-browser testing, client revisions, AI-assisted design and development

SELECTED EXPERIENCE

Independent Website Designer & Developer | Personal & Client Projects | 2024–Present

- Completed four paid website projects in the past month; collaborate with small-business clients on requirements, design decisions, revisions, and delivery.
- Build and refine responsive WordPress websites with service pages, branding, contact forms, quote requests, and mobile-friendly layouts.
- Develop and maintain independent web products, including a local business directory and a WooCommerce store with downloadable digital products.
- Manage source code in GitHub and deploy a custom portfolio website through Vercel; troubleshoot site links, hosting connections, and domain records.

SELECTED WEBSITE PROJECTS
